FAIRM STOCK

MILK ESSENTIAL FOR STOCK

While Good Pasture is Important for Calves No Substitute Will Take Place of Milk.

(Prepared by the United States Department of Agriculture.)

"You cannot starve a young animal so as to check its growth, and still get good results." This comment by a Missouri farmer on the problem of preventing runtiness in live stock is in accord with the experiences of several hundred other live stock owners who have contributed their experience to the United States Department of Agriculture's study of this subject. "Starvation," he adds, "caused by the robbery of the weak by stronger animals, improper and unscientific feeding, indigestion caused by careless

feeding, unclean troughs, pails, and swill barrels—all of these things cause much of the trouble in farmer's experiences, especially in their hog lots."

In discussing the importance of milk as an essential food both for live stock and people, he remarks that while good pasture is very essential to the growth of calves, for veal calves no substitute will take the place of fresh cows' milk. "From my own experience," he states, "I know that no young animal will recover from retarded or stunted growth. As a child I was normal in size and my parents were of strong, sturdy, Scotch stock. When, some years ago, my parents settled as pioneers in Iowa, meat was a luxury, and milk and butter were unobtainable, at least for the first year. At the end of the year we got a cow and chickens, so our living conditions improved." He adds that malaria followed, and, although he outgrew the effects of the disease, he "never gained the physical strength, weight, or development of bone and muscle" that he should have had. "My normal weight," he says, "has been about 125 pounds, and still my health has been the best since I got the 'shakes.' Keep your young animals growing."

PRODUCTION OF GOOD HORSES

Increase in Number of Draft Animals Held to Be Great Need, Says Wayne Dinsmore.

Horse dealers feel that the horse is "coming back." According to information gathered by the Horse Association of America and transmitted to J. F. Kuehn of university farm, secretary of the Minnesota Horse Breeders' association, more draft horses are now being sold for city use than for many years past. Increased production of good horses is held to be a great need at present. Wayne Dinsmore, an authority well known in horse circles, says: "You can safely assure the farmers of a better market for their surplus animals."

HIGH SILLS CAUSE OF LOSS

Nebraska Breeder Finds That Little Pigs Are Unable to Follow Sows Into Pens.

Many pigs are lost and others are stunted in growth as the result of exposure because of high sills in front of hogpens. This is the observation of a Nebraska swine grower in a letter to the United States Department of Agriculture on the cause of runt live stock. He urges that stockmen examine their equipment, and be certain that small pigs are able to follow the sows into the pens. Attention to balanced rations, sanitation, and pure water are likewise mentioned as methods of preventing runts.

BENEFIT OF STABLE MANURE

It Should Be Balanced With Acid Phosphate, Which Is Comparatively Inexpensive.

Manure contains humus in plenty and all the necessary plant materials, as well as bacteria which put these materials into the most usable shape for crops. To get the full benefit of stable manure, however, it should be balanced with acid phosphate, which is comparatively inexpensive.

KEEPING HARNESS IN REPAIR

Neglect Results in Injury That Lessens Durability—Sew With Strong Linen Thread.

Neglect of harness results in injury that greatly lessens its durability. The sewing, which should have been done with strong waxed linen thread, must be kept in good condition. All buckles should remain solidly in place. It is advisable to wash and oil harness frequently.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetideester of Salicylicacid. —Adv.

In Memoriam.

A crowded elevator in a western office building was nearing the bottom of its descent when it suddenly dropped a few feet, recovered, and continued its trip at a normal rate.

"It's all right," said the elevator boy reassuringly. "If it had fallen it would only have meant a couple of stories."

"That's all," replied a portly gentleman, casting a solemn eye upward. "Just two—one in the Star and one in the Times."—American Legion Weekly.

SUFFERED SEVEN LONG YEARS

Finally Relieved by taking Lydia E. Pinkham's Vegetable Compound

Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound so I decided to try it, and before the first bottle was gone I found great relief so I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's medicine to suffering women."—Mrs. BERTHA LIERING, R. F. D., Ravenswood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, bearing-down pains and nervousness. Every such woman should profit by Mrs. Liering's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.
